

ALLURE

Lettuce Butter

Aphid resistant

**U.S. Protected Variety/U.S. Patent
No. 8,614,371**

CHARACTERISTICS

Resistance

HR : Downy mildew (BI) : BI:16-25,27,28,31,32EU ; Lettuce leaf aphid (Nr:0) ; Tomato bushy stunt virus (TBSV) ;

Great color

Large heads

Multi-use

DESCRIPTION

Bright green butterhead

Produces large heads so it is suitable for both the fresh and processing markets

Its resistance to mildew and Nasonovia aphids reduce the need for insect sprays

CROP CALENDAR

COASTAL CALIFORNIA/IMPERIAL VALLEY/YUMA

Vilmorin is a brand of the Business Unit Vilmorin-Mikado. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
